  - Cape Verde
  - Cote d'Ivoire
  - The Gambia
  - Ghana
  - Guinea
  - Liberia
  - Mali
  - Niger
  - Senegal
  - Sierra Leone
  - Togo
4. The ECOWAS ECOWAP Monitoring & Evaluation Programme Officer, Mrs. Fatmata SEIWOH, on behalf of the ECOWAS President, Kadre Desire OUEDRAGO, the ECOWAS Commissioner for Agriculture, Environment and Water Resources and Director of Agriculture and Rural Development, welcomed the participants to the workshop and expressed her gratitude to Cote D'Ivoire for hosting the event. She emphasized that, there must be a solid M&E system as well

as the use of evidence based approaches in implementing policies, plans and programs in the Agriculture sector in order to ensure achievement of desired results that would benefit the population of the region. Therefore all stakeholders should ensure a steady progress in their various contributions in building a solid agriculture sector.

5. NEPAD Representative, Professor Hamidou Bolyin his statement stressed the importance of Agriculture at the African Union level over the past 10 years. Following the last summit held in Malabo, Republic of Equatorial Guinea in June 2014, and the ECOWAS Heads of States adopted a set of declarations and decisions in the context of the CAADP results framework. He noted that with the CAADP Results Framework, Africa is setting priorities and determining what to continue, what to abandon and what to start doing – with a focus on results and impacts. He later mentioned the dynamism of ECOWAS as a Regional Economic Community and the coordination role which should focus on finding innovative solutions in assisting the Member States in the implementation of the second phase of the CAADP in order to improve the well-being of the population.
6. Prior to the opening of the workshop, the representative of the Minister of Agriculture of Cote d'Ivoire, Mr Bernard K. COMOE in his speech, welcomed the participants, and stressed the importance of the Agriculture sector in the development process for the next 10 years. As part of the NAIP process, Cote d'Ivoire reached the threshold of 1,000 billion F CFA in 2015 after 03 years of implementation. However some challenges still need to be addressed, which are the 10% budget commitment, the improvement of food quality and the mechanization of the agricultural sector among others. In conclusion, Mr COMOE appealed that the meeting should aim at improving the well-being of the population through the inclusion of the annual agriculture growth rate of 6% and the ownership of the various tools for the definition of indicators and data analysis and quality.
7. The agenda and the following objectives of the workshop were presented and adopted by participants:
  - i. Bring all participants to the same page on the Joint Sector Review processes as a component of Mutual Accountability – with emphasis on the Regional JSR
  - ii. Determine the actual status and trends in the implementation of CAADP/NAIP/RAIP and their M&E systems including challenges, opportunities and objectively assess the major initiatives the countries are undertaking to meet the stipulated goals and targets identified in their respective CAADP compacts and investment plans. Specific objectives of this include:
    - Achievements in NAIP & M&E systems
    - Establishing the extent of capacity reform taking place in relation to existence of M&E tools and systems, mutual accountability platforms and mechanisms (e.g. MAFAP; JSR; Country SAKSS, etc.);
    - Assessing the effectiveness of established local capacity and systems for coordinating and facilitating CAADP implementation in the countries (CAADP Country teams, Agriculture Sector Working groups; other multi-stakeholder/multi-sectoral dialogue platforms; inter-ministerial coordination)
    - Envisaging how the existing country efforts can be strengthened
  - iii. Orientate participants on Sustaining CAADP Momentum-Results Framework- Goals, targets; and implications for domestication, internalization and operationalization to

accelerate implementation; way forward as a region (Malabo declaration, CAADP 2015-2025 Framework, 2015-2025 Indicators).

- iv. Consolidate results to contribute to ECOWAP + 10 and support the establishment of the next generation of RAIP and NAIPs
